

THANK YOU, for the wonderful non obtrusive, extremely well time managed intervention. I found your facilitation style, modus operandi refreshing, calm, and appropriate for the intervention. The approach was perfect and I think justice was done to 2 days out given that it is a new team forming so time had to be spent on forming.....

Good luck and may you experience great success.

The facilitator ensured an impression on each of us through his easy way of explaining complex concepts. Just being here and experiencing this session had a very positive impact on me. We all had the opportunity to interact and he kept it interesting.

LK, Administration Manager, Sales & service Division, Chemical Company

I was very impressed with the knowledge and process. Now I am very excited and looking forward to implementing and to set an example.

BT, Marketing Assistant, Paint Company

The session opened up a lot of insight, which was in the subconscious of a lot of us, but needed to be discussed in the open.

LH, Credit Controller, Head Office, Paint Company

Thank you for the workshop and the informative material. I especially appreciate the sensitive way in which you handled the issues. We appreciate the openness and encouragement.

GR, Letting Manager, Property Management Company

Today was very insightful and the techniques and ideas put forward have made my thought processes a lot clearer. I gained invaluable information on the people's perceptions of me, which is something significant in my life and work place.
